Rebate is available for the installation of a Level 2 EV charger installed on or after January 1, 2024. The charger must be installed where electricity is supplied by McLeod Cooperative Power and controlled on an off-peak rate. Rebate submittal must follow the guidelines as outlined by the cooperative. McLeod Cooperative Power is not responsible for inaccurate information supplied by vendors.

Important:

- Rebate amount is up to \$500 to offset the cost to install an EV charger controlled on an off-peak rate. Any rebates greater than \$300 will be issued as a check. MCPA reserves the right to issue rebates as a credit on the electric bill if the member's account is in a "past due status". Allow 6-8 weeks for processing.
- EV charger must be installed within cooperative's service territory.
- Additional outlets for your EV that are not off-peak outlets are prohibited when participating in the storage program.
- Maximum rebate of \$5,000 per member per year. Rebates are on a first-come first-serve basis while rebate funds remain available.
- Fill out this form completely. **Incomplete forms will not be processed.**
- Include your account number and sign the form.
- Rebate program is subject to change or cancellation without notice.
- Submit completed rebate form and a copy of the electrician's bill for wiring the charger or outlet by December 13, 2024 to: McLeod Cooperative Power | 3515 11th St E | Glencoe, MN 55336 | 320-864-3148 | 800-494-6272
